"STAGES OF SPIRITUAL GROWTH"

Many of you may remember Rev. William Petrie who was Pastor at our Parish in 2002-2003.

As a teenager, he read a biography of St. Damien of Molokai. "That book inspired me so much that I decided I was going to become a priest and work with leprosy patients," he said. "And it all came true." Sixteen years later, Fr. Bill went to India to work with Mother Teresa of Calcutta, whose mission was to serve with leprosy, where he lived for 25 years. During those years, he started the Damien Institute in India, which included a medical clinic, education for youth, rehabilitation and employment services. He also established a Sacred Hearts congregation in India to join the worldwide community and continue the work of the Institute. All this has led him to fulfilling the call to Molokai. Father's passion for sharing St. Damien's legacy has been welcomed by all peoples.
